

Mohamed Wael

Full Stack Developer — React · Next.js · Node.js · Express.js · MongoDB · TypeScript

+20106733 3964 | mohamedwaeltorad@gmail.com | [Linkedin](#) | [GitHub](#) | [Portfolio](#) | Cairo, Egypt

SUMMARY

Full Stack Developer with 2+ years of experience building scalable, production-ready web applications across the full stack — from responsive frontends using React, Next.js, and Angular to robust backend services with Node.js, Express.js, MongoDB, and Firebase. Delivered multiple SaaS platforms, e-commerce systems, and AI-powered applications both professionally and as a freelancer. Skilled in REST API design, JWT authentication, state management, and Agile workflows, with a strong focus on code quality, performance, and clean architecture.

EXPERIENCE

Frontend Developer — Huma-volove Jan 2025 – Jan 2026

- Built scalable web applications using Next.js, React, and TypeScript; developed reusable component libraries, integrated RESTful APIs with JWT authentication, and implemented Redux Toolkit state management.
- Optimised frontend performance, bundle size, and cross-browser compatibility; collaborated with back-end developers and designers in Agile sprints and code reviews.

Full-Stack Developer Intern — CodVeda (Remote) Sep 2025 – Nov 2025

- Built multiple full-stack web applications using React, Node.js, Express.js, and Firebase — implementing RESTful API integrations, CRUD operations, and responsive design.

Frontend Developer Intern — DevWave Jun 2025 – Aug 2025

- Led team building a full-stack Amazon Clone; managed Agile workflow via Trello, conducted code reviews, and enforced Git/GitHub best practices throughout the project.

PROJECTS

Owwab (أواب) — Islamic Companion Android App [GitHub](#)

React Native 0.81 · Expo SDK 54 · TypeScript · Redux Toolkit · Redux Persist · Kotlin/Java · NativeWind · Tailwind CSS

- Built a production-grade offline-capable Islamic Android app with custom native Kotlin/Java modules — exact Azan scheduling via AlarmManager (setExactAndAllowWhileIdle), ForegroundService for background audio, and SYSTEM_ALERT_WINDOW Floating Tasbeeh Bubble.
- Implemented bidirectional state sync between native Android SharedPreferences and Redux Toolkit — zero data loss across app restarts; delivered Quran reader, GPS-based prayer times, Qibla compass, Ibadah tracker, Zakat calculator, and home screen widget.

Smart Clinic — Medical SaaS Platform (Dashboard · Web · PWA) [Live](#) | [Web](#) | [Dashboard](#)

Next.js 14 · React · TypeScript · Node.js · Express.js · Firebase · Tailwind CSS · Paymob API · PWA · OpenRouter LLM API

- Built customer and partner-facing web platform with 70+ features across 3 portals — architected high-quality reusable components and implemented front-end engineering standards for client-side JavaScript and CSS.
- Delivered PWA supporting offline mode, push notifications, and add-to-home-screen on iOS and Android; optimised UI rendering, caching, and bundling for cross-device performance.
- Integrated RESTful APIs, OpenRouter LLM API for AI-driven follow-ups, Paymob payments, ICD-10 E-Prescription system, and bilingual RTL/LTR UI — securing code against vulnerabilities throughout.

ResumeAI — AI-Powered SaaS Web Application [Live](#) | [GitHub](#)

Angular 20 · TypeScript · Firebase · Tailwind CSS · SCSS · Angular Signals · RxJS · OpenRouter LLM API · Angular SSR · ng2-charts · chart.js

- Built a full AI-powered SaaS platform with resume builder, ATS Analysis Engine (keyword density, format compatibility, skill gap scoring), AI Mock Interview with voice interaction, instant feedback and sentiment analysis, and 35+ premium customizable templates.
- Engineered Admin Dashboard with real-time analytics (DAU/MAU KPIs via ng2-charts), activity audit logging, user management with role assignment, and template popularity tracking — all backed by Firebase Firestore.
- Implemented full i18n (English/Arabic with RTL layout), dark mode, PDF generation (jspdf, html2pdf.js), DOCX parsing (mammoth), OCR (tesseract.js), multi-format export, and Angular SSR for SEO and performance.

Eleve — Premium E-commerce Full Stack Platform [Live](#) | [GitHub](#)

Next.js 14 · React 18 · Node.js · Redux Toolkit · Tailwind CSS · Firebase · Paymob

- Full-stack e-commerce with Redux Toolkit, Paymob payments, real-time transactions, order history, and admin dashboard with CRUD, CMS, and advanced filtering.

Amazon Clone — Full Stack E-commerce Application [Live](#) | [GitHub](#)

React.js · Bootstrap · Node.js · Firebase (Auth & Realtime Database)

- Full-stack e-commerce app with Firebase Auth, product management, shopping cart, and order tracking — Team Lead managing Agile workflow and code reviews.

SKILLS

Frontend: React, Next.js 14, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS, Tailwind CSS, Bootstrap, Redux Toolkit, React Context API, Zustand

Backend & APIs: Node.js, Express.js, REST API design & integration, JWT authentication, OAuth, RBAC, GraphQL (familiar), Firebase (Auth, Firestore, Storage, Realtime DB)

Databases: MongoDB, PostgreSQL, MySQL, Firebase Firestore & Realtime DB, Supabase

Mobile: React Native, Expo, PWA (offline mode, push notifications, iOS & Android)

AI & Automation: OpenRouter LLM API, Anthropic Claude API, custom prompt engineering, n8n workflow automation, GenAI web apps (chat, summarization, guided workflows)

DevOps & Tools: Git, GitHub, Docker (familiar), Vite, Webpack, npm, CI/CD (familiar), Vercel, Agile/Scrum, Kanban, code reviews, Trello, VS Code

Web Security: SQL Injection prevention, XSS mitigation, secure authentication workflows, input validation & sanitization

Shopify: Shopify theme development, Liquid templating, Shopify CLI, Shopify APIs & webhooks, headless Shopify with Next.js

EDUCATION

Bachelor of Computer Science — Arab Open University, Egypt

CERTIFICATIONS

Responsive Web Design (FreeCodeCamp) · Front-End Developer (HackerRank) · Clean Code Practices (MHRATECH) · React.js (Satr) · Git & Version Control (Satr) · Full-Stack Developer (The Odin Project) · Node.js (FreeCodeCamp)
